

Eduardo Castillo | Frontend Developer / Web Engineer

Remote, Italy

+39 348 3448387 | sir.edwardcastle@gmail.com | github.com/edwardcastle | linkedin.com/in/eduardo-castillo-dev

Professional Profile

Frontend Developer with over 6 years of experience designing and developing modern, high-performance, user-oriented web applications. Specialized in Vue.js, Nuxt.js, and TypeScript, with web work spanning UN agencies (UNAIDS, UNFPA, IOM, IFAD), EBU Eurovision, AdTech (UTIQ), NGOs, and startups. Strong focus on code quality, accessibility, performance optimization, and design-system implementation. Experienced collaborating with designers and backend teams to deliver fluid, scalable, responsive interfaces.

Work Experience

Frontend Developer -- Enterprise Projects

Remote, Italy

Employer: Dacomat S.r.l. - Delivery partner: Reply S.p.A.

Jun 2025 -

Present

- Frontend development for enterprise clients in the energy and industrial sectors
- Interactive dashboards and data management interfaces built with Vue 3 and TypeScript
- Dynamic tables with filtering, pagination, and optimized sorting
- File import/export flows and large-dataset handling
- Performance optimization: lazy loading, code splitting, reusable component libraries

Elkanodata

Remote, Spain

Frontend Developer

Sep 2023 - Jun 2024

- Worked alongside two senior frontend developers on enterprise client engagements
- UN agencies: UNAIDS (Let Communities Lead, GCAI), UNFPA (Equity 2030, UHC Assessment Tool), IOM Climate-Related Migration, IFAD RIDE 2023, Peace Begins With Me
- Other clients: EBU Eurovision News (newsroom microsite), Covenant House (WordPress CMS integration on existing vanilla frontend)
- Stack: Nuxt 3, Vue 3, TypeScript, Prismic CMS, WordPress, D3.js, GSAP, Lenis, Swiper, Webpack, Vite

Teavaro

Remote, UK

Frontend Developer

Aug 2022 - Sep 2023

- UTIQ -- corporate marketing site (Vue.js + TypeScript) supporting the TrustPid-to-UTIQ rebrand and expansion across European markets
- Admin platform maintenance and development for user and data management
- JavaScript to TypeScript migration for improved stability
- Reusable Vue components and automated testing implementation
- Backend collaboration for API optimization and caching

JADE Solutions

Remote, Cuba

Frontend Developer (Freelance, part-time)

Nov 2022 - Jul 2023

- Luna Tour -- Vue 3 + Vite SPA for travel destination discovery (multilingual, mobile-first, WhatsApp handoff)
- CMS pages, SEO optimization, and Google OAuth integration
- Mobile layouts with Ionic and Capacitor
- E-commerce admin panels

ONAT

Hybrid, Cuba

Frontend Developer

Sep 2019 - Aug 2022

- Frontend developer on internal administrative systems for Cuba's National Tax Administration Office (ONAT)
- Built and maintained a reusable Vue component library shared across multiple admin modules
- REST and GraphQL API integration with client-side caching and rendering optimization
- Iterated UX based on direct feedback from internal operational teams
- Three-year tenure with progressive ownership of larger surfaces and feature areas

El Catre

Frontend Developer

Remote, Cuba

Aug 2019 - Sep 2020

- Built the frontend of Cuba's first independent e-commerce platform: Nuxt 2 + Vue 2 + Vuex + Buefy on an Apollo GraphQL client
- Seller storefronts, product catalog, cart, checkout, and seller analytics dashboards with ApexCharts
- Real-time chat and notifications over WebSockets backed by Django Channels + Redis
- Federated auth: Firebase phone verification, Facebook/Google OAuth, JWT
- PWA + SSR optimization tuned for Cuban network conditions; image cropping and QR code generation
- Backend support on Django + Graphene as secondary contributor (not the primary backend developer)

Freelance Projects

ZenO -- Site Improvements & Email Integration

2026

- Responsiveness improvements, DNS and redirect setup
- Resend integration for questionnaire delivery to client and newsletter subscriptions

Casa in Ordine

2025-2026

- Multilingual (IT/EN/ES) home-organization site for a Rome-based business
- Next.js 16 + React 19 + Tailwind v4, with 9-step Preventivo quote wizard
- Brevo email integration, Umami analytics, GDPR cookie consent

FreeMock

2025-present

- Meme creator and social platform with web3 wallet auth (Reown AppKit)
- Nuxt 3 + Pinia + shadcn-vue + Fabric.js editor + WebSocket chat with Signal Protocol
- Go + govips image-rendering microservice; CI/CD with SonarQube and Codecov

BattleBucks -- Play-to-Earn on Solana

2025

- Real-money battle royale and 1v1 PvP game on Solana, distributed as PWA and native iOS/Android
- Nuxt 3 + Pinia + Reown AppKit for Solana wallet connect and SIWX authentication
- Custom WebSocket store for real-time match flow and chat with reconnect logic
- Capacitor for native iOS/Android builds from a single Nuxt source; Sentry for observability

Cubita Producciones

2025

- Trilingual (ES/EN/IT) Cuban talent agency site with artist catalog and booking flow
- Next.js 16 + App Router + Tailwind v4 + next-intl + Framer Motion
- Strapi v5 CMS scaffolded for eventual editorial cutover

Gitfast

2024

- Mexico-based freelance engagement
- New features and reusable UI component library
- Performance optimization and frontend refactoring for scalability and readability

Education

UCI University

Cuba

Computer Science Degree

2013 - 2019

- Specialization in Java and object-oriented programming
- ACM-ICPC competition participation
- Thesis: CAD system development with C++ and Qt
